Hi, I'm Jonathon — a multidisciplinary designer in Austin, TX, telling stories through visual design, motion and video for 8+ years. AI coding tools are my favorite escape, giving me the freedom to build almost anything. Claude Code anchors my workflow, alongside the wider set of tools I orchestrate around it.

## Experience

|             |                                                                                                                                                                                                                                                                   |                 |
